

# Potable Water Storage Shed

**Strad** is excited to provide a new product offering to its lineup of products and services - Potable Water Storage Sheds. Strad's potable water storage sheds keep more fresh water on-site and reduce the frequency of trucks hauling water to site. This can help reduce costs when it comes to transportation and will also decrease the number of trucks on the road.

## Features & Specifications

Each 2200 gallon shed comes with:

- 2200 gallon tank
- Insulated and heated building, 2 baseboard heaters
- 1 x 30Amp twist lock plug with 100' of cord
- Dual pump system, can isolate each pump
- 2" fill and drain lines
- 1/4" drain valve on pump
- 100' of 2" lay flat hose

Each 4100 gallon shed comes with:

- 4100 gallon tank
- Insulated and heated building
- 2 x 30Amp twist lock cords, 100' each
- 2" fill and drain lines
- Single pump
- Pump on/off switch
- 1" drain on pump
- 200' of 2" lay flat hose
- Replacement valves for tank and pump discharge

## Advantages

- More fresh water on-site
- Fewer trucks on the road
- Less emissions creating a safer environment
- Decrease in transport costs
